WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/JP2005/004792

Box No. V

Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability;
citations and explanations supporting such statement

1. Statement

Novelty (N)

Claims 1-12 YES

Claims _____ NO

Inventive step (IS)

Claims 2, 4-6 YES

Claims 1, 3, 7-12 NO

Industrial applicability (IA)

Claims 1-12 YES

Claims _____ NO

2. Citations and explanations:

Document 1: JP, 2003-195908, A (Honda Motor Co., Ltd.), 11 July, 2003 (11.07.03)

Document 2: JP, 7-212234, A (Hitachi Ltd.), 11 August, 1995 (11.08.95)

The subject matters of claims 1, 3 and 7-12 appear neither to involve an inventive step in view of documents 1 and 2 cited in the ISR. It is easy for a person skilled in the art to apply, to a plant control device for modulating a control input signal, which is instructed in document 1, a technical idea for generating an input signal by dividing the input signal into a plurality of components, modulating a part of the components and then adding the modulated components to another component, which is instructed in document 2. It is not considered especially difficult to specify a field to which the technique is applied (a device to which the said technique is applied).
